**FLEXSHOCK™ PROTECTION:
16FT (4.9M)**

Our material technology absorbs impact & uses the heat energy to reform the case.

**WASTE RESPONSIBLE
INNOVATION***

With our innovative bio-spice formula, 90% of this case breaks down into the earth once you're finished with it.

**INTERCHANGEABLE,
MECHANICAL BUTTONS**

Feel the click with our mechanical buttons that can be interchanged.

**SCRATCH RESISTANT
FINISH**

Featuring a smooth, brushed metal finish that is both stylish and scratch resistant.

DESIGN DETAILS

Microfibre inner lining for extra protection and polished mechanical buttons.

**ENHANCED CAMERA
PROTECTION**

Designed with raised beveling to protect your camera lenses.

*This case is 90% biodegradable. These cases feature our in-house Waste Responsible Innovation technology that will biodegrade in landfill environments in a matter of just a few years. Our materials have been independently tested by Eden Research Laboratory, Albuquerque, USA. This product is not considered biodegradable in some parts of the world, including California, Maryland, Washington and France.
